

Island Way Grill – Calamari

Florida – Clearwater.

My daughter loves calamari. So anytime we eat out especially when we travel we like to try the varieties because it tastes different everywhere. Who would think?

The calamari appetizer at [Island Way Grill](#) is exceptional which is why I rate it 5 stars. No other place and that's about 20 different places have come close. Not sure what makes them extra special, well yes I know.... the herbs and seasonings used.

The calamari dish is lightly fried king pao style with roasted cashews and crisp noodles for \$13.50.

Food tip: I always ask for any sauce and dressings on the side, by doing this you can control how much you are adding/eating.
